

CHEMISTRY NEWSLETTER

Vol. 31, No. 26

June 25, 2004

VISITING SPEAKERS

The National Institute for Nanotechnology and the University of Alberta invite you to a presentation by **Dr. Thomas J. Webster**, Department of Biomedical Engineering and School of Materials Engineering, Purdue University entitled, "Nano-biotechnology: The design of better implants through the use of nanophase materials" on Monday 28 June 2004 at 11:00 am in Room V-107 V-Wing.

NOTICES

Undergraduate Summer Research Student / Chemistry Faculty Mixer — TODAY (Friday 25 June) from 4:00 pm to 6:00 pm in the Courtyard between Physics and Chemistry (rain location: Chemistry Lounge E4-43). Come out and meet all the other summer undergraduate research students and the faculty. Free Pizza and Pop will be served.

Canada Day — Thursday 1 July — University Buildings will be closed.

REMINDER — On Thursday June 24 at about 3:30 pm, there was a strong smell of DMSO (dimethyl sulfoxide) in the labs on the third floor (north end) of Chemistry East. This is likely because someone on one of the upper floors poured it down the sink. Please be reminded that NO organic solvents (including DMSO) are to be poured down the sink. There are red solvent containers for that purpose. Thank you.

Attention Chemistry Graduate Students — Please note that the deadline for submitting the first Annual Progress Report (for the year 2003-2004) has been extended to **Thursday 1 July 2004**.

Newsletter Editor will be away from June 18 to July 5 inclusive. Any items for the newsletter can be forwarded to lin.ferguson@ualberta.ca during that time.

EMPLOYMENT OPPORTUNITIES ON REVERSE

EMPLOYMENT OPPORTUNITIES
ARE POSTED ON THE BULLETIN BOARD
ACROSS FROM THE ELEVATORS ON THE THIRD FLOOR

PLEASE DO NOT REMOVE THE EMPLOYMENT NOTICES FROM THE BULLETIN BOARD

Employment opportunities are posted on a new internet site: <http://www.careerowl.ca>

AnorMED is seeking a synthetic organic chemist for an NSERC Industrial Research Fellowship in their development chemistry group. www.anormed.com

AnorMED is seeking a synthetic organic chemist to join their medicinal chemistry group. www.anormed.com

Department of Chemistry, University of Alberta invites applications for positions as sessional instructors to teach Introductory University Chemistry (Chem 10X) for the academic year 2004-2005. An MSc or PhD degree is required. Please see the posting at <http://www.careers.ualberta.ca/Opportunities/index.aspx?Page=47&CompNo=380>

Mount Allison University, NSERC UFA tenure-track assistant professor position effective July 1, 2005. Email ufa@mta.ca

Augustana University College invites applications for a sessional teaching position in Chemistry for the fall term 1 September 2004 through 31 December 2004. deansoffice@augustana.ca

Advanced Integrated MicroSystems Ltd. (AIMS) is seeking applicants for the positions of Applications Development Scientist (Separation Science) and Research Associate Scientist. Positions require a BSc to a PhD level degree in analytical chemistry, biochemistry or a related discipline, with relevant academic or industry (preferred) experience in the areas of microfluidics, solid phase extraction, LC/MS, or capillary electrophoresis. Contact rwilliston@aims-bio.com

University of Tennessee has a non-tenure track position in analytical and general chemistry. Email fschell@utk.edu
