CHEMISTRY NEWSLETTER

VISITING SPEAKERS

Alberta Ingenuity Centre for Carbohydrate Sciece presents **Dr. Jesus Angulo**, Universität Lübeck, Germany, will speak on "Binding of ligands to human blood group B galactosyltransferase as studied by NMR" on Friday, August 6, 2004 at 11:00 AM in E3-25.

Alberta Ingenuity Centre for Carbohydrate Sciece presents **Dr. Matthew Disney**, EidgenöüüSwitzerland, will speak on "Small molecule targeting of RNA and carbohydrate microarrays" on Monday, August 9, 2004 at 1:00 PM in V-125.

Alberta Ingenuity Centre for Carbohydrate Sciece presents **Dr. Nicola Pohl**, Iowa State University, will speak on "Chemical proteomics and synthetic strategies to decipher the glycocode" on Thursday, August 12, 2004 at 11:00 AM in V-125.

****
NOTICES

Attention all Faculty, Staff and Graduate Students

We have just experienced yet another laboratory and office flood. Please check all hoses for cracks, flaws and/or holes as these flaws cause flooding of labs and offices which in turn cause much damage to equipment, important papers and furniture.
  In addition please update the emergency contact information outside your labs as this quickly becomes outdated and therefore useless in an emergency.
****
Stickers for emergency numbers. Please come and pick up your stickers provided by campus security for the number to call in case of fire or other emergencies.
****
ELECTRONIC NOTIFICATION OF EXPENSE PAYMENTS

You may have been receiving multiple notifications of EFT deposits regarding a travel/expense claim already submitted and paid, often with some scrambled name as the recipient. Please disregard these and future notices of this kind - SMS/Travel are testing the system and have run into some glitches. Be assured there will be no duplicate deposits made to your account because of these notifications.
****
NMR News 2004-03 has been posted on the web at nmr.chem.ualberta.ca. Reading it is highly recommended to all NMR users. Contents:

- problems with spectrometer reservations
- i400: reduced access time
- changes in NMR equipment
- CD burning
- archive and backup tapes
- disk usage information
- m400: update
- FAQ 2004-03.1: uninterrupted power supply (UPS) - why do our spectrometers not have it?
- FAQ 2004-03.2: in case of a power failure can I get my sample out of the magnet?

EMPLOYMENT OPPORTUNITIES

ARE POSTED ON THE BULLETIN BOARD
ACROSS FROM THE ELEVATORS ON THE THIRD FLOOR
PLEASE DO NOT REMOVE THE EMPLOYMENT NOTICES
FROM THE BULLETIN BOARD

Employment opportunities are posted on a new internet site: http://www.careerowl.ca

University of Toronto, invites applications for a tenure stream position (Assistant Professor) in the area of Organic Chemistry. www.chem.utoronto.ca

University of Toronto, invites applications for a Canada Research Chair (CRC) in field measurements of global environmental chemistry. www.chem.utoronto.ca

University of Quebec, Department of Chemsitry and Biopchemistry is seeking candidates for a tenure-track professorship in analytical chemistry or biochemistry. Website: http://www.er.uqam.ca/nobel/dep_chim/dep_chim.htm

Universitaires du CRSNG, le department de chimie et de biochimie de l'Université du Québec à Montréal, professeur du Programme d'appui aux professeurs universitaires (APU) du CRSNG en chimie ou en biochimie. Website: http://www.nserc.ca/sf_f.asp?nav=sfnav&lbi=c7

Dalhousie University, Department of Chemistry invites applications for a full-time probationary tenure-track position at the rank of Assistant Professor in the field of Materials Chemistry. Website: http://www.chem.dal.ca/no2004mcsearch.html

Activation Laboratories Ltd., NSErC industrial postdoctoral positions in organic research.

Lakeland College, sessional instructor

Drexel University, Tenure-track assistant professor position
