

Visiting Speakers

Prof. Radu Iftimie, Département de chimie, Université de Montréal, will speak on "Spectral signatures and molecular origin of acid dissociation intermediates: a joint theoretical/experimental investigation" on Thursday, August 13, 2007 at 11:00 a.m. in CEB 325.

Congratulations to: Bryan Demko and Kris Harris (Wasylishen Group) attended the Solid-State NMR Symposium at the 49th Rocky Mountain Conference on Analytical Chemistry held at Breckenridge, Colorado, July 22-26. Bryan won the Chemistry Department "Norman Jones Travel Award" to attend the conference. At the conference Bryan received the "Laura Marinelli Award" for the top poster presentation. His poster was titled: "A Solid-State NMR Investigation of Single-Source Precursors for Group 12 Metal Selenides". Congratulations Bryan!

The 3rd Annual Erlenmeyer Cup Soccer Tournament. will be held on Saturday, August 11th from 10am-2pm at Lister Field. Every division of chemistry is going to be represented, so contact your CGSS divisional VP (<http://www.chem.ualberta.ca/~cgss/Executive%20Committee.html>) to make sure you get on the team. Games will consist of 7 players on the field plus a keeper, and teams can have an unlimited amount of subs. Your team must be registered by July 27th, and there will be a day designated (Aug 3rd, b/w 11am and 1:30 pm in E4-36) for players to come sign waivers, etc. If you have any questions, contact your Social Conveners Matt (zamora@ualberta.ca) or Vicki (vicooper@ualberta.ca). The winner of the tournament gets immortalized on the coveted Erlenmeyer Cup Trophy! Hope to see you out!

Safety First The eye wash stations in the hallway are only good if they are maintained. If there is an eyewash station outside your lab, could we ask you to run the water through the eyewash station to clear out any settlement that has built up over time? Thank you!

Employment Opportunities

are posted on the bulletin board across from the elevators on the third floor. Please do not remove the employment notices from the bulletin board.

Employment opportunities are posted on a new internet site:

<http://www.careerowl.ca>

Oxford University, has a postdoctoral position to work on the synthesis of molecules for spin entanglement experiments with Prof. Harry Anderson (Department of Chemistry) and Dr. John Morton (Department of Materials).

<http://www.chem.ox.ac.uk/jobs.asp> or

<http://www.materials.ox.ac.uk/vacancies/index.htm#DJ07018>

University of Guelph has a postdoctoral position available in organic chemistry. Please see the employment board for more information.

UOIT invites applications for a tenure stream Industrial research Chair position. Please see <http://science.uoit.ca> for more information.

Brock University invites applications for a probationary tenure track position in Analytical chemistry or in closely related areas. Please see www.broku.ca for more information.

Gilead Alberta (formerly Raylo Chemicals) has a job opening for a QC Chemist III to process development as part of the drug team at Gilead. M.Sc. required to apply. Please send resumes to resumes.Alberta@gilead.com.

Simon Fraser University seeks to fill a postdoc position in synthetic organic chemistry. Please see <http://www.sfu.ca/chemistry/groups/plettner> or <http://www.sfu.ca/chemistry/CERG/Home.html> for more information.

Lethbridge University, Department of Chemistry and Biochemistry invites applications for a 9 month term position at the Academic level to begin on or after Aug. 15, 2007. Please see employment board for more information as well as the address to direct inquires to.

Senior Chemical Engineer / Polymer Chemist Menlo Park, CA. Please contact nickm@wdsearch.com for more information. This position is also posted on the employment bulletin board.
