

Visiting Speakers

Professor Makoto Fujita, Department of Applied Chemistry, School of Engineering, University of Tokyo, Japan, will speak on "Metal-directed self-assembly: Function through architecture" on Wednesday, November 14, 2007 at 1:00 p.m. in E3-25.

Dr. Bruce Gibb, Research Professor, Organic and Biochemistry, University of New Orleans, will speak on "Deep Cavity Cavitations: How molecular concavity and the hydrophobic effect can engender unusual physical properties" on November 14, 2007 at 10:00 a.m. in Taylor Seminar Theatre, NINT Bldg.

Dr. Eric Rivard, Department of Chemistry, University of California, Davis, will speak on "Donor stabilization of reactive inorganic multiple bonds" on Thursday, November 15, 2007 at 2:00 p.m. in E3-25.

Mel Comisarow, University of British Columbia, Department of Chemistry, will speak on "Development of Fourier transform ion cyclotron resonance spectroscopy" on Friday, November 16, 2007 at 2:00 p.m. in E3-25.

Maryam Tabrizian, PhD, MBA, associate professor, Chercheure-Nationale FRSQ, Dept. of Biomedical Eng., Faculty of Dentistry, Centre for Biorecognition and Biosensors(Director), and McGill Institute for Advanced Materials, will speak on "Development of Biointerfaces for improved interaction with Biologics" on November 16, 2007 at 10:00 a.m. in Taylor Seminar Theatre, NINT Bldg.

Prof. Michael VanNieuwenhze, Department of chemistry, Indiana University, Bloomington, Indiana, USA, will speak on "Synthesis and study of Depsipeptide antibiotics that inhibit bacterial cell wall biosynthesis" on Monday, November 19, 2007 at 11:00 a.m. in MEC 2-1, Mechanical Engineering.

CUMES – The next cumulative examination will be held on Saturday, December 1, 2007 at 11:00 a.m. in Rm. E3-25.

The University of Alberta
Will be closed on
Monday, November 12, 2007
For the holiday
Remembrance Day

Employment Opportunities

are posted on the bulletin board across from the elevators on the third floor. Please do not remove the employment notices from the bulletin board.

Employment opportunities are posted on a new internet site:
<http://www.careerowl.ca>.

Natural Sciences and Engineering Research Council of Canada has openings for three postdoctoral fellows. Please see employment board for more information.

Brown University invites applications for a faculty position (open search) in the general area of inorganic chemistry at the Professor rank or tenured senior rank. Please see employment board for more information.

Queen's University, Department of Chemistry invites applications for an appointment as the Alfred Bader Chair in Organic Chemistry. Please see www.chem.queensu.ca for more information.

University of Alberta has an opening for a Laboratory technician. Please see employment board for more information.

Indiana University is seeking applicants for a faculty position in Analytical Chemistry. Please see employment board for more information.

UOIT invites applications for a tenure stream position in Chemistry at any rank. Also invitations are extended for a full time position as Associate Dean in the Faculty of Science. Please see employment board for more information.

Xenon Pharma, has an immediate opening for a BS/MS chemist. Please see <http://www.xenon-pharma.com> for more information.

University of Munich, has an immediate opening for a scientist in Chemical Proteomics with a strong background in synthetic organic or medicinal chemistry. **There is also** an opening for a scientist of data management and bioinformatics with a strong background in relational database technology and object oriented programming. Please see www.wzw.tum.de/bioanalytik for more information.

University of Wisconsin, invites applications for a tenure track faculty position in the areas of natural products chemistry. Please see http://www.ohr.wisc.edu/pv/pv_057141.html for more information.

University of Prince Edward Island, invites applications for a tenure track appointment in Physical or Inorganic chemistry at the assistant professor level. Please see www.upei.ca/~chem for more information.

Brown University, invites applications for a faculty position (open search) in the general area of inorganic chemistry. P
