

Visiting Speakers

Prof. Mark Thachuk, Department of Chemistry, University of British Columbia will speak on "Dissociation of Gas Phase Protein Complexes" on Thursday, August 21, 2008 in E3-25 @ 11:00 AM.

Congratulations to:

Janet MacDonald with Dr. Veinot who successfully defended her thesis on Thursday, August 7/08.

Terrance Zihao Cheng with Dr. Campbell who successfully defended his thesis on Thursday, August 7/08

Grigory Tikhomirov with Dr. Fenniri who successfully defended his thesis on Friday, August 8, 2008

Room Bookings website:

On the Chemistry Department website, you will find a room bookings section that lists all of the room bookings for the period listed on the site. At the end of the booking listing are the times and dates for the final exams for each course. Please contact Jeannette at the above email if you have any additions, deletions or changes to the booking site.

A Sad passing: Ernest Neville Young who worked in the Chemistry Machine Shop from 1966-1989 died at the age of 85 on July 18, 2008.

Cume exam: The next cumulative examination will be held on Saturday, September 6 @ 11:00 a.m. in E3.25.

*... we've all heard the saying that an apple a day keeps the doctor away? Well we have a similar quote for our Chemistry lab personnel. Our quote is this: "A gallon a day keeps the fumes away". What does this mean exactly? We've all experienced these strange smells from time to time – what's the solution? Pour a gallon of water down your floor drain, and the smells will not be as frequent. Why do these smells happen? We must remember to **NOT** pour chemicals down the sink drains. Sink drains are for water only but in case we forget, the water down the floor drain greatly reduces the strange smells. Thank you for saving our noses!*

Employment Opportunities

are posted on the bulletin board across from the elevators on the third floor.
Please do not remove the employment notices from the bulletin board.

Employment opportunities are posted on a new internet site: <http://www.careerowl.ca>.

GL Chemtec International Ltd. is searching for an organic synthetic chemist for organic and organometallic chemistry. Please see employment board for more information.

Nanyang Technological University is looking for National Research Foundation people and Research Fellowships for all areas of science and Mathematics to join Dr. Steve Zhou (MIT), Dr. Hong Soon Hyeok (Caltech), Dr. Christos Panagopoulos (Cambridge) and Dr. Eugene Makeyev (Helsinki). Please apply at the following: https://rita.nrf.gov.sg/AboutUs/NRF_Initiatives/NRF_RF_2008 for more information.

Nanyang Technological University is looking for assistant professorships in all areas of science and mathematics for a tenure track position. Please apply at the following: https://rita.nrf.gov.sg/AboutUs/NRF_Initiatives/NRF_RF_2008 for more information.

University of Toronto invites applications for a tenure track position in Chemistry at the rank of Assistant professor in Biological Chemistry. Please see <http://www.utsc.utoronto.ca/~physsci/> for more information

University of Ottawa is seeking to fill a replacement, non tenure track, faculty position starting Sept./08 in the area of physical or inorganic chemistry. Please see employment board for more information.

University of Alberta, Department of Ag/Food & Nutritional Science invites applications for a postdoctoral fellow in Supercritical Fluid Technology and Hydrolysis Processing targeting on high value added products. Please see <http://www.ales.ualberta.ca/afns/msaldana.cfm> for more information.

Alberta Sulphur Research Ltd. is seeking a Postdoctoral fellow in the field of heterogeneous catalysis. Please see <http://www.chem.ucalgary.ca/asr> for more information.

Alberta Sulphur Research Ltd. has an opening for an experimental physical chemist. Candidates should hold a recent Ph.D. in this field. Please see <http://www.chem.ucalgary.ca/asr> for more information.
