

BSOC09

OCTOBER 29TH -
NOVEMBER 1ST, 2009

The 4th Banff Symposium on Organic Chemistry (BSOC) will be held from October 29th - November 1st, 2009, in beautiful Banff, Alberta. This conference aims to highlight graduate student's research in synthetic, biological, material and organometallic chemistry, while providing an opportunity to discuss their work with industrial, postdoctoral, and faculty researchers.

The line up of keynote speakers is as strong as it's ever been, and we are inviting you to join us for a weekend of opportunities to share your work and inspiration in the heart of Canada's Rocky Mountains.

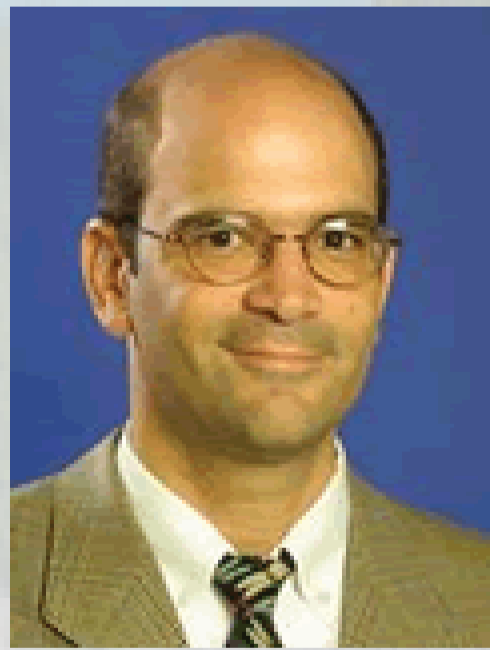

KEYNOTE SPEAKERS

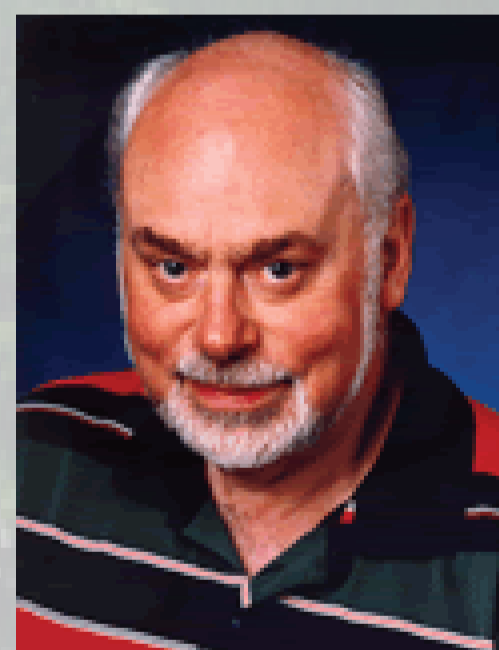

Dr. Scott Snyder
Columbia
Synthetic Chemistry

Dr. Helen Blackwell
Wisconsin - Madison
Biological Chemistry

Dr. Erick Carreira
ETH - Zurich
Organometallic Chemistry

Sir J. Fraser Stoddart
UCLA
Materials Chemistry
